

Cookies Policy

COOKIES POLICY

This website uses cookies and similar technologies to ensure the proper functioning of the procedures and improve the experience of use of online applications and services. This document provides detailed information on the use of cookies and similar technologies, how they are used by this site and how to manage them.

DEFINITIONS

Cookies are fragments of text that allow the web server to store information on the client via the browser to be reused during the same visit to the site (session cookies) or later, even after days (persistent cookies). Cookies are stored, according to user preferences, by the single browser on the specific device used (computer, tablet, smartphone).

TYPES OF COOKIES

Based on their characteristics and use, cookies are divided into different categories:

- **Strictly necessary cookies.**

These are cookies that are essential for the proper functioning of the site. The duration of cookies is strictly limited to the browsing session (when the browser is closed they are deleted).

- **Analysis and performance cookies.**

These cookies are used to collect and analyze traffic and use of the site anonymously. These cookies, even without identifying the user, allow, for example, to detect if the same user returns to connect at different times. They also allow you to monitor the system and improve its performance and usability. The deactivation of these cookies can be performed without any loss of functionality.

- **Profiling cookies.**

These are cookies used to identify (anonymously and not) user preferences and improve your browsing experience.

- **Third parts cookies**

By visiting a website you can receive cookies both from the visited site ("proprietary"), and from sites managed by other organizations ("third parts"). A notable example is the presence of "social plugins" for Facebook, Twitter, Google+ and LinkedIn. These are parts of the visited page generated directly by the aforementioned sites and integrated into the page of the host site. The most common use of social plugins is aimed at sharing content on social networks.

DURATION OF COOKIES

Some cookies (session cookies) remain active only until the browser is closed or the logout command is executed. Other cookies "survive" when the browser is closed and are also available in subsequent visits by the user.

These cookies are called persistent and their duration is set by the server at the time of their creation. In some cases a deadline is set, in other cases the duration is unlimited.

This site does not use persistent cookies, however it is possible that while browsing this site you can interact with sites managed by third parties that can create or modify persistent and profiling cookies.

HOW TO MANAGE COOKIES

The user can decide whether or not to accept cookies using the settings on his browser. It should be borne in mind that the total disabling of cookies can compromise the use of the site's features.

Below you can access the guides for managing cookies on different browsers:

Chrome: <https://support.google.com/chrome/answer/95647?hl=en>

Firefox: <https://support.mozilla.org/en-US/kb/cookies-information-websites-store-on-your-computer>

Edge: <https://support.microsoft.com/en-us/windows/delete-and-manage-cookies-168dab11-0753-043d-7c16-ed5947fc64d>

Opera: <http://help.opera.com/Windows/10.00/en/cookies.html>

Safari: <https://support.apple.com/guide/mdm/managing-safari-cookies-mdmf7d5714d4/web>

It is also possible to use online tools such as <http://www.youonlinechoices.com/> which allows you to manage your tracking preferences for most of the advertising tools by enabling or disabling any cookies selectively.
